# COMPANY PROFILE

2025

# OVERVIEW

---

VeRAM specialises in developing and implementing **Generative AI Solutions, Enterprise Data Services, and Bespoke Software Platforms**. We work closely with our clients to co-create and execute their digital strategies and technology solutions.

We are dedicated to delivering innovative solutions that meet the diverse needs of our clients, spanning multiple IT capability areas, industries, and leading technology platforms. We ensure that our clients have access to the very best in technology solutions, all tailored to their specific requirements. To deliver these solutions, VeRAM has partnered with industry leaders such as IBM, to develop and deploy their Watson AI and Data offering.

Behind VeRAM's success is our team of highly skilled specialists and leaders in technology and business. They collaborate closely with our clients to design, develop, and seamlessly integrate end-to-end technology solutions that prioritise customer-centric business value.

## ABOUT US

---

**Proven Track Record** - We have a proven track record of delivering high-quality, outcomes-based solutions to organisations across various industries. We have received accolades for our innovative solutions and customer-centric approach.

**Flexible Engagement Models** - We offer flexible engagement models to suit the needs of our clients, from project-based engagements to long-term partnerships. This enables organisations to choose the engagement model that best fits their budget, timelines, and strategic objectives.

**Industry & Technical Expertise** - Our resources have both the technical and domain expertise to hit the ground running.

## OUR LEADERSHIP

---

Sachin Ram-Asary  
(Managing Director)

MBA, MSc, BA Hons, BSc,  
BAppSocSci

Sachin is a strategic and innovative business and technology leader who has created and led large capabilities in both consulting and corporate environments. His industry experience spans largely financial services (banking and insurance), as well as oil & gas, manufacturing, and the public sector. He is passionate about delivering transformational, organisation-wide change via people, technology, customer experience, and data.

As a current and former CIO, Technology Officer, and Head of Consulting, Sachin has defined and implemented business strategies and operating models, managed company-wide capabilities and portfolios, led multi-country engagements, managed extensive teams, incubated new service offerings, and provided thought leadership on both strategic and operational matters.
